Benny

With years of experience as a forester, I have used almost all Stihl tools and would be happy to advise you on their use and handling.

Powerful and easy to start

"The STIHL FS 91 weighs about 6 kg and offers enough power to remove thorns and brambles. Starting is easy and straightforward, especially compared to older or cheaper gasoline brush cutters. With a primer, automatic reset lever, and a reliable STIHL engine, starting is quick, even for less experienced users."

STIHL FS 91 ok for beginners?

What is the STIHL FS91?

The FS91 is a petrol-powered brushcutter equipped with a **STIHL 4-MIX® engine** — a four-stroke engine that runs on a 2-stroke fuel mix, combining the advantages of both technologies. It delivers around **0.95kW / 1.3hp** and weighs approximately **5.8kg** (dry weight, without cutting attachment). It is designed for larger areas, tough grass, and landscape maintenance, featuring tools like an anti-vibration system, ergonomic **bike handle**, and **double shoulder harness** (stihl.de, simon-profi-technik.de, testberichte.de).

Suitable for beginners?

Pros:

- User-friendly & comfortable:** Multifunctional handle with stop button simplifies operation and restarting (stihl.de, simon-profi-technik.de).
- Ergonomics & fatigue reduction:** Anti-vibration system and double harness make longer sessions more bearable (stihl.de, faraguna-gartentechnik.de, simon-profi-technik.de).

Starting a brush cutter: How it works | STIHL

The STIHL FS 91 is generally suitable for dedicated beginners who need to maintain larger areas or challenging terrain – however, it is somewhat heavier and more powerful than typical entry-level models, so a certain level of physical fitness and basic technical understanding are advantageous.

Advantages for beginners

- The machine features a simplified starting process with a fuel pump, primer, and automatic reset lever, making starting particularly easy—a plus for beginners who often have difficulty starting the engine.
- The double shoulder strap and the ergonomic two-hand handle are individually adjustable and make handling and working for longer periods much easier.

Perplexity

Simon Profi-Technik is featured at top position, outperforming authority brand STIHL.
